

Adopted MSBA/MASA Model Policy 807

Revised: 2022 (Originated 2012)

807 HEALTH AND SAFETY POLICY

[Note: To receive health and safety revenue for any fiscal year, service cooperatives must submit an application to the Minnesota Commissioner of Education, along with a health and safety budget adopted and confirmed by the school board as being consistent with the service cooperative's health and safety policy. This policy has been approved by the Minnesota Department of Education.]

The subdivisions of Minnesota Statutes Section 123B.57 that relate to a service cooperative's ability to apply for health and safety revenue have been repealed effective fiscal year 2017. The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

It is the policy of BrightWorks, the service cooperative, to promote health and safety, reduce injuries, and comply with federal, state, and local health and safety laws and regulations.

II. GENERAL STATEMENT OF POLICY

- A.** The policy of the service cooperative is to implement a health and safety program that includes plans and procedures to protect employees, volunteers, and members of the general public who enter the service cooperative office. The objective of the health and safety program will be to provide a safe and healthy learning environment; to increase safety awareness; to help prevent accidents, illnesses, and injuries; to reduce liability; to assign duties and responsibilities to service cooperative staff to implement and maintain the health and safety program; to establish written procedures for the identification and management of hazards or potential hazards; to train service cooperative staff on safe work practices; and to comply with all health and safety, environmental, and occupational health laws, rules, and regulations.
- B.** All service cooperative employees have a responsibility for maintaining a safe and healthy environment within the service cooperative and are expected to be involved in the health and safety program to the extent practicable. For the purpose of implementing this policy, the service cooperative may form a health and safety advisory committee to be appointed by the executive director. The health and safety advisory committee will be composed of employees and other

individuals with specific knowledge of related issues. The advisory committee will provide recommendations to the administration regarding plans and procedures to implement this policy and to establish procedures for identifying, analyzing, and controlling hazards, minimizing risks, and training service cooperative staff on safe work practices. The committee will also recommend procedures for investigating accidents and enforcement of workplace safety rules. Each recommendation shall include estimates of annual costs of implementing and maintaining that proposed recommendation. The executive director may request that the safety committee established under Minnesota Statutes section 182.676 carry out all or part of the duties of the advisory committee or the advisory committee may consider recommendations from a separate safety committee established under Minnesota Statutes section 182.676.

III. PROCEDURES

- A.** Based upon recommendations from the health and safety advisory committee and subject to the budget adopted by the BrightWorks board to implement or maintain these recommendations, the administration will adopt and implement written plans and procedures for identification and management of hazards or potential hazards existing within the service cooperative in accordance with federal, state, and local laws, rules, and regulations. Written plans and procedures will be maintained, updated, and reviewed periodically by the BrightWorks board and shall be an addendum to this policy. The executive director shall identify in writing a contact person to oversee compliance with each specific plan or procedure.
- B.** To the extent that federal, state, and local laws, rules, and regulations do not exist for identification and management of hazards or potential hazards, the health and safety advisory committee shall evaluate other available resources and generally accepted best practice recommendations. Best practices are techniques or actions which, through experience or research, have consistently proven to lead to specific positive outcomes.
- C.** The service cooperative shall monitor and make good faith efforts to comply with any new or amended laws, rules, or regulations to control potential hazards.

IV. PROGRAM AND PLANS

- A.** For the purpose of implementing this policy, the executive director will, within the budgetary limitations adopted by the BrightWorks board, implement a health and safety program that includes specific plan requirements in various areas as identified by the health and safety advisory committee. Areas that may be considered include, but are not limited to, the following:
 - 1.** Asbestos

2. Fire and Life Safety
3. Employee Right to Know
4. Emergency Action Planning
5. Combustible and Hazardous Materials Storage
6. Indoor Air Quality
7. Mechanical Ventilation
8. Mold Cleanup and Abatement
9. Accident and Injury Reduction Program: Model AWAIR Program for Minnesota Schools
10. Infectious Waste/Bloodborne Pathogens
11. Community Right to Know
12. Compressed Gas Safety
13. Confined Space Standard
14. Electrical Safety
15. First Aid/CPR/AED
16. Food Safety Inspection
17. Forklift Safety
18. Hazardous Waste
19. Hearing Conservation
20. Hoist/Lift/Elevator Safety
21. Integrated Pest Management
22. Laboratory Safety Standard/Chemical Hygiene Plan
23. Lead
24. Control of Hazardous Energy Sources (Lockout/Tagout)
25. Machine Guarding
26. Safety Committee
27. Personal Protection Equipment (PPE)
28. Playground Safety
29. Radon

- 30. Respiratory Protection
- 31. Underground and Above Ground Storage Tanks
- 32. Welding/Cutting/Brazing
- 33. Fall Protection
- 34. National Emission Standards for Hazardous Air Pollutants for Generators established by the United States E.P.A.
- 35. Other areas determined to be appropriate by the health and safety advisory committee.

If a risk is not present in the service cooperative, the preparation of a plan or procedure for that risk will not be necessary.

- B. The executive director shall establish procedures to ensure, to the extent practicable, that all employees are properly trained and instructed in job procedures, crisis response duties, and emergency response actions where exposure or possible exposure to hazards and potential hazards may occur.
- C. The executive director shall conduct or arrange safety inspections and drills. Any identified hazards, unsafe conditions, or unsafe practices will be documented and corrective action will be taken to the extent practicable to control that hazard, unsafe condition, or unsafe practice.
- D. Communication from employees regarding hazards, unsafe or potentially unsafe working conditions, and unsafe or potentially unsafe practices is encouraged in either written or oral form. No employee will be retaliated against for reporting hazards or unsafe or potentially unsafe working conditions or practices.
- E. The executive director shall conduct periodic workplace inspections to identify potential hazards and safety concerns.
- F. In the event of an accident or a near miss, the service cooperative shall promptly cause an accident investigation to be conducted in order to determine the cause of the incident and to take action to prevent a similar incident. All accidents and near misses must be reported to an immediate supervisor as soon as possible.

V. BUDGET

The executive director shall be responsible to provide for periodic BrightWorks board review and approval of the various plan requirements of the health and safety program, including current plan requirements and related written plans and procedures and recommendations for additional plan requirements proposed to be adopted. The executive director or the executive director's designee, each year shall prepare preliminary revenue and expenditure budgets for the service cooperative's health and

safety program. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the BrightWorks board and the public. The BrightWorks board shall review the projected revenues and expenditures for this program and make such adjustments within the expenditure budget to carry out the current program and to implement new recommendations within the revenues projected and appropriated for this purpose. No funds may be expended for the health and safety program in any year prior to the adoption of the budget document authorizing that expenditure for that year, or prior to the adoption of an amendment to that budget document by the BrightWorks board to authorize that expenditure for that year. The health and safety program shall be implemented, conducted, and administered within the fiscal restraints of the budget so adopted.

VI. ENFORCEMENT

Enforcement of this policy is necessary for the goals of the service cooperative's health and safety program to be achieved. Within applicable budget limitations, service cooperative employees will be trained and receive periodic reviews of safety practices and procedures, focusing on areas that directly affect the employees' job duties. Employees shall participate in practice drills. Willful violations of safe work practices may result in disciplinary action in accordance with applicable service cooperative policies.
